Office Action Summary

Art Unit: 1712

The amendment filed on December 3, 2002 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the elected claims were drawn to compositions comprising polyethylene terephthalate and elastomeric material, classified in class 525, subclass 177, while amended claims are drawn to foamed products classified in 521, subclass 138. The claims are related as intermediate and final produce. As the intermediate can be used other than to produce foam product, such as composition to produce a molded article without foaming agent, and as there is nothing on the record to show them to be obvious variants, the claims are deemed patentably distinct. The foamed products belong to non-elected Group III, set forth in the restriction requirement made June 5, 2002.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
